

## Rory Duff June 2023 mini update newsletter

Hi everyone and thank you for reading this short newsletter. It is really just an update on activities you may be interested in. We live in times of increasing uncertainty and that is moving us into short term planning more and more. This is why I have only added dates for a few months ahead only.

As many of you know, I am trying to be guided more and more by synchronicity. We may know something that has to be done - we just don't sometimes know when and by whom.

### **Rome update**

I have for a while known about some work that needs to be done in Rome and that it had to be done by this coming Summer solstice. This was also to be done in conjunction with some really important work repairing a 1<sup>st</sup> order node in Peru. One of the Emperor Dragon lines that goes through that location goes all the way through the 1<sup>st</sup> order node in Spain and across into Italy just South of Rome.

I had initially thought that I may be given some sign to take a group over to Rome at the last minute in order to help activate the node on Mount Cavo there. The image at the start of this newsletter shows the beautiful location of this node.

This node is of extreme importance as a type 4 alignment runs from the node there, right through the centre of Rome. Events last weekend finally threw light on what will be now happening and I will mention more on this shortly. First though, here is an update on why the work is necessary.

This type 4 alignment running through Rome used to form a node in the centre of the city at the pyramid of Romulus. However this pyramid is no longer in existence as it was deliberately taken down and the node was broken. It can now be repaired.

The significance of doing this energy work from Peru to the heart of Rome cannot be underestimated – especially as the node in Peru is the last 1<sup>st</sup> order node in the World that needs to

be repaired. Once done, the whole Emperor Dragon field of energy will be complete and able to pour huge amounts of light and love through its network of lines.

This will shine a huge amount of divine light right into the heart of Rome where it will drive positive change in many ways and into the surrounding areas.

You might rightly ask at this point why this might be necessary and what might this do.

For those of you who would like to know more, I would direct you to research the 3<sup>rd</sup> secret of Fatima.

If you have not read my [July 2022 newsletter](#), you will find some details under the Fatima prophecies section.

We have further relevant information provided to us by Father Martin and some of this can be seen in this video.

[Did Malachi Martin Leak The Real Third Secret Of Fatima?](#) (23mins)

Father Martin was the Secretary to Pope John 13<sup>th</sup>. He too had read the 3<sup>rd</sup> secret of Fatima. In his own words he says 'There is wholesale Apostacy in the Catholic church – 'There are Papabili (*People who could be elected Pope*) who are Apostate. (*Apostates are people who rebel against the fundamental faith who reject God and Christ.*)

This, on the face of it, is an incredible indictment against those running the Catholic church.

Father Martin goes on to reveal that the secret implies that huge geopolitical change is coming as well as 'the onslaught of natural powers'. Part of this seems to be another miracle of the skies involving the sun and three days of darkness.

Sister Lucia, one of the three children who had been given the three secrets, said in her last interview ever 'Keep your eyes on the skies.'

I have no idea how much Apostacy exists at the top of the Catholic church but, in many ways, we don't need to know because the extra light and love energy that will be sent into Rome and the Vatican will only enhance a good person's ability to do good deeds or it will drive the darkness out. Either way the outcome will be positive.

Last weekend, again following a thick vein of synchronicity, I was drawn to run a seminar and a meditation on the Saturday in London. The timing of when to do this was provided by a kind request to come to the launch of the Sanskrit film series. This is about a pilgrimage type quest by Gaiea Sanskrit to rediscover ancient wisdom. The film has been beautifully made and when it comes out, it is well worth watching. For more details <https://www.gaieasanskrit.com/>

There were many really beautiful souls at the launch and one of them was a lady whose family lived in Rome at the foot of Mount Cavo – the location of a key node in the whole process. She was also going to be there on the Solstice and was well aware of the exact place of the node. She has very kindly agreed to take a small group of people to meditate there during the next harmony time gathering on the 20<sup>th</sup> June.

This now means there is no need for a group of us to go out there to Rome. The Universe had other ideas and has kindly gifted us a bit more information on how the whole operation will come about. I will report how it all went in my August newsletter.

This now brings me nicely to a question I have been unable to answer until the Rome question had been sorted – where was the next gathering for group meditation that I would be facilitating?

### **The June 20h Harmony time gathering**

There are many great group meditation events that have been planned for the 20<sup>th</sup> around the World and several of these are on the Sacred Network website for people to join.

We tend to run these events in three meditation sessions. The first is to connect with the energies of the place with a mind to see if there is anything we need to be doing. Intuitively this can be given to anyone present.

The second meditation then takes place where the intention is set at the outset that is connected to any result from the first meditation. What is also included is any other intent that has come through in the days leading up to the harmony time. In this case, it will be assisting in the activation of the newly repaired node in Peru. In this June gathering we will be joining in with the group of 33 people who have travelled from around World to the special location in Peru where the node is being repaired.

The local Elders from the nearby village will be joining in the ceremony as they will become the guardians of this site – a place where it has only recently been discovered that pre-Megalithic polygonal masonry can be found. It is also a site that is also hardly ever visited by tourists.

In the third meditation, we tend to suggest that people set their initial intent on more personal matters like the health of a loved one or to ask for more synchronicity in their lives in order to find and stay on their path.

This June, I am going to be returning to **Oliver's castle near Devizes in Wiltshire**. We have had some spectacular meditations there and there is room for many people as well as plenty of room for parking.

So if you can make it please join me. We meet at the end of the dirt track road at 11.30am and head to the node for a midday start.

This year though, we will be holding another group meditation at 2pm and one at 4pm. If you would like to be part of the activation of the Peru node, please do also come along. If you cannot make those times due to work commitments, I am sure there will be people who are going to be meditating there at 6pm too.

I do have to mention that there are no facilities of any kind at the site so please do come prepared.

### **Events coming up for 2023**

If anyone would like to join me on any of the following events, I have been kindly asked to do the following talks and I will be running the following courses on these days. If the demand is there, I will look to run more courses.

There is already a priority list for the level 1 and level 2 dowsing courses and the node care course so if you have asked to be placed on this list, please do let me know if you can make it as soon as possible. Just to remind you that you cannot do the level 2 dowsing course unless you have done the level 1 course.

The node care course will be preceded by a zoom call, at an earlier date, for all people coming along. I will be going through a series of slides that will help you learn more about nodes and energy lines.

This will mean that the day everyone gets together will be spent doing practical things. To do this course, you also need to have done the level one dowsing course. If you are interested and you have not already told me, please just register your interest in doing this course. I will be sending out details soon about venues and timings.

2<sup>nd</sup> - 4<sup>th</sup> June - [Betterway conference Bath](#). Online tickets are still available. I have been kindly invited to do a 10 min talk and to be on a panel on the Sunday evening. My talk is on 'Our evolving consciousness – a better way forward'. The only tickets now available for this are online ones. There are some really great speakers this year – have a look by clicking on the link.

20<sup>th</sup> June –Tuesday gathering Oliver castle – three meditations - Midday, 2pm, & 4pm

### **Sacred path modules update**

There are a few facilitators now who have gone through all 5 levels of these modules and they will be ready soon to run their own groups. I will be helping them to do this too. If you are interested in joining a group, please sign up to the Sacred path modules public group on the Sacred Network website. I have added more details on the contents of these modules on the forum in that group.

It will be here that these facilitators will be announcing they are looking for new group members.

That's all for now. All I would say is that we are going through some surging energetic times that are proving quite tiring. All I can suggest is going with the flow more, purifying physically and emotionally and regularly meditating.

Blessings to you all

Rory Duff

The next main newsletter will be out in August but
