

Rory Duff June 2022 interim update

Hi to all of you.

You will already know that for the moment, I have had to move my newsletters to one every two months. The next one will be coming out on the 1st July.

There are however occasionally updates that require a monthly missive – this being one of them – as I would like to update you on a few areas :- Harmony time gatherings, New dowsing training courses for the next three months, future talks and an update on the how the sacred network website is coming along.

Gatherings locations

The next harmony time starts on the 20th June and is likely to last for around 16-17 days based on previous extending durations of time. This means meditation at any time on a symmetrical node is going to mean meditating in a vortex ring during those days.

We have been meditating four times a year since 2012 at sacred sites and always on the first day of the harmony time at midday. If everyone does the same, at midday in their own time zone, it will set up a wave of positive energy being brought into the World.

I will be at Oliver's castle in Wiltshire again this summer where we have had such special times in the last few years. If you can make it please do join us. The place will hold 200 people fairly easily.

This does raise the question of optimum numbers in a group and at a particular site and this is one of the reasons why the sacred network site is being developed. In the future having several successive groups meditating at a location one after the other, is more preferable and probably more effective over the long term too.

There really are many groups around the World now coming together on the harmony time – too many to mention here – another reason for the sacred network site, but I have been asked to mention two events and both actually at the same location.

This is at Knowlton Church in Dorset in the UK. One will be held at midday on the Monday the 20th and the other will be at 9.30am till 11.30am on the 21st – the Solstice itself. The node there is in the church ruins at the centre of the Ancient Henge site.

Awareness and Dowsing courses

I have managed to find some free Sundays over the next three months for some more dowsing courses. A few people have pre-booked and prepaid for any dates which is why some places have already been taken up.

The next one is coming up soon in just under two weeks time.

12th June – 3 places left

24th July – 2 places left

21st August – 6 places left

I am also looking to do another consolidation day for anyone who has ever done my level 1 course at Avebury. If you are interested, please email me to begin with so I can manage the numbers.

It offers a great chance to connect with others who have similar interests and meet up with old friends. In regards to the dowsing, we will be looking at the type 3 lines as they enter the stone circle, the type 4 lines and the location of the node by following the centres of the lines and we will be heading over to the Sanctuary, Silbury hill and the Longstones.

I will be running a level 2 dowsing course later in the year so the Avebury day will be a great time to brush up your skills before that.

28th August – Avebury dowsing day Price £25

Future Talks

I have been kindly asked this year to give a talk at the **British Dowzers Society Symposium** in Coventry on the 18th of June. Aside from myself, there are other speakers that I know who are also giving a talk on the day. More information can be found via this link

<https://britishdowzers.org/symposium-2022/>

The title of my talk is :- **A Classification of Earth Energy Lines, Nodes, Large Vortexes – How, Why & What is going on?**

Recognising different types of Energy lines, nodes and vortexes is necessary when it comes to working with earth energies. Common understanding in Geobiology – the study of how the earth affects life – has shown how these dynamic energies are changing, and driving an awakening change in human consciousness. This talk covers how and why this classification came about and how it is being used in mapping lines and group meditation on the main nodes around the world.

I will also be adding an update to the talk with some recent findings.

As a small incentive to come along to the symposium, I will be running a short practical workshop for anyone who has done my level 1 dowsing course. It will be run at the most convenient time in the afternoon in the ruins of the old bombed out Coventry cathedral. It is the site of a powerful 4th order node and we will be looking as a group to find the centre of the node by following the centres of the pairs of type 4 lines. This as you will know offers us a chance to see where we will all be standing in the circle around the centre.

The Coventry ruins are a short walk from the venue of the Symposium in the centre of the city.

If you are attending the symposium and would like to join me for some fun dowsing in the ruins, please do email me. I personally am looking forward to going back to this node which I first came across over 15 years ago now.

Of interest is that this is that the symposium is just two days before the harmony time and this means that all the smaller energy lines will have already moved into harmony before the larger type 4 lines join them on the 20th.

Sacred network information

It has been a few weeks since the last update on how the new sacred network site is coming along. There is still much work to be done but the focus at the beginning was to get the functioning side of the site working. This required some specialist programming that has now been done. The reason this was needed was down to the desired verification process we wanted.

Essentially, to be either a verified member or a verified event facilitator, you need to be verified by someone who is already verified. This is a bit of a chicken and an egg situation but there will a starting number of people we can verify as we know many of the founding members. Every verified member will then be able to spread the verification process and this will then ensure a degree of quality control and accountability in regards to members accounts on the site.

Everyone else new to the site will have to start on an unverified basis. For a member to become verified, then need to attend an event run by a verified facilitator. That facilitator now has an easy tick box exercise that verifies that member.

For a facilitator to become a verified facilitator, a verified member needs to attend the facilitators event. That verified member can then choose to verify that facilitator – again with an easy tick box exercise.

Automatic emails have now been built in that will help with this process.

The following is a message from the web designer:-

“We have created an events space where anyone can list and book onto events. Members can attend and verify the facilitators. The facilitators can also verify the members which attend the events.

There is a map where all known vortexes and nodes can be found by anyone looking for places to hold gatherings or meet up with communities in local areas.

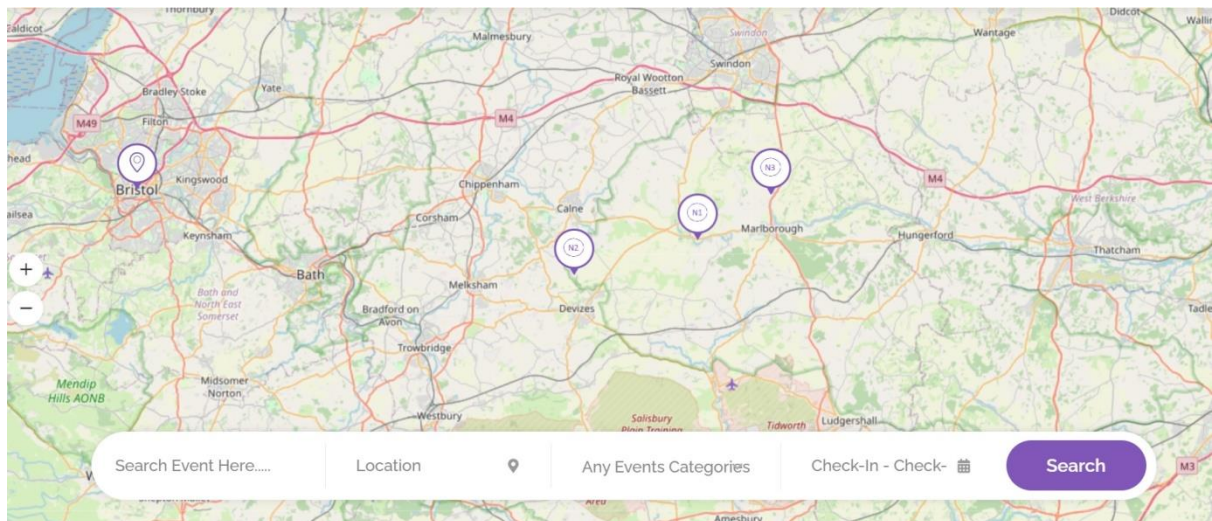

Each member of the website can publish their own profile, create their own groups and forums for any topics. These groups can be public or private.” - Paul Mc

Paul has recently been very busy live streaming the recent Betterway conference in Bath where speakers came from around the World to discuss better ways forward in our healthcare system when it comes to epidemics and other medical matters.

What has still to be done is some front end design work on the site and a migration on to the encrypted Edge blockchain network. It is hoped that this and initial testing on this environment will be done by the end of June.

We are also looking at adding a couple of other very useful aspects to the site that will help interconnectivity between groups and discussion forums and I have got quite a lot of work putting up sacred site information on the maps. We may well have to go live during this process and adding sites will become an ongoing process.

Below is an example of some of the sites on a map of an area of the UK. By clicking on the site you will be taken to a site information page and there you can see what events have been set up by group facilitators at these sites.

The next image below is a screen shot of some of the groups I have already set up for the sacred path discussion and dialogue groups that I run.

Anyone will be able to set up groups and have discussion forums as well as join others as the site is all about similar minded people coming together to share new information and experiences of the changing energetic environment, its effects and our evolution of consciousness.

Last Updated By  Rory 37 Minutes Ago. 2 Topics

Topic	Voices	Posts	Freshness
 Prophecy module discussion forum Rory Private: Sacred Path Discussion Group Level One	1	1	 Rory 37 Minutes Ago
 Blueprint on life discussion forum Rory Private: Sacred Path Discussion Group Level One	1	1	 Rory 40 Minutes Ago

In addition to these, every member now has their own profile page where they can put up photos, videos and data files. They will also be able to turn on notifications for event information and discussion thread information.

My next full newsletter will come out on the 1st July and I will have another update for you on the site then.

Many thanks for your time

Blessings

Rory
